1/20/70

Senator Richard B. Russell
U.S.Senate
Washington, D.C. Attn:Mr Campbell

Dear Senator,

When there is a transcript of your remarks to be broadcast on Georgia TV, I'd very much like a copy, if this is not too much trouble. I was interested in the prominent space devoted by the Washington Post as compared with the total sielnce of the Star.

I regret you were not able to devote more time to this after I first got in touch with you, for I think that in the future some of the opinions and conclusions you expressed may seem less unattractive to you.

My own work has continued, I think with marked success. Should you desire to accept them, those offers I made you stand. I now have in my possession evidence that was denied you. I also have what I think you will agree is incontrovertible evidence of perjury and a prima facie case of its subornation.

Without these, you would never have signed that Report.

Sincerely,

Harold Weisberg
